

ATTEMPT TO BURN SUPERVISOR HORNER'S HOME HOUSE IS SET ON FIRE BY AN INCENDIARY DURING NIGHT.

FLAMES ARE SOON PUT OUT

Supervisor Searches the Road For the Mischreant.

Centerville is Excited Over the Attempt to Destroy the Home.

CENTERVILLE, May 5.—A deliberate attempt was made here last night to burn the home of Supervisor C. F. Horner. The miscreant, whoever he was, bored a hole with an inch and a half auger through the rustic boarding on the east side of the front steps of the house. He then inserted a roll of paper eighteen inches long, through the hole, and then saturated the paper and boards with coal oil, and then set it on fire.

Mrs. Horner had heard a strange noise, and awoke her husband only to be greeted with the glare of a mid-summer blaze lighting their room and threatening them with death.

Rushing to the rear of his house, Mr. Horner got into the basement and opened a small door under the steps, and turning on a small garden hose, soon had the fire under the steps under control.

FLAMES OUT.

While he was busy down stairs, Mrs. Horner had summoned her brother-in-law, R. Blacow, from his home a short distance away, and with his aid the flames on the outside were soon extinguished. The recent rain and a heavy dew last night it is believed are all that saved the house from destruction, for had the lumber been perfectly dry it is not believed the fire could have been extinguished. As it was it was mostly the flame of the coal oil and some of the dry wood under the house that made the flame.

HEARD INCENDIARY.

Mrs. Horner heard the incendiary at work, and woke her husband, but he paid little attention to what she said and went to sleep again. She says, however, that she distinctly heard the auger as it broke through the board and afterwards heard the rustling of the paper and shavings, but could not at the time imagine what it was.

WHO IS THE ENEMY?

Supervisor Horner is at a loss to explain such an act. He does not know of an enemy that he has in the country, and the only way he can account for such an act is that some one with an imaginary grievance endeavored to work out his spite.

LIKE RUSSIANS, THIS COUPLE HAS HAD 'ANNOFSKY.'

Annofsky vs. Annofsky is the title of a divorce suit instituted this morning in which Eva A. Annofsky says that she has had all the experience she wants with Henry Annofsky.

Annofsky is annofsky, she says, and Henry Annofsky, she says, is too much.

He is in the habit of swearing and cursing at her, and makes her go out and work at \$6 a week to support herself and child, while he spends his earnings in following out his own desires.

Their child is six years of age, and she says that the father is not a fit or proper person to have the custody of it.

She says that he has also threatened to poison her, and not only has she had to work during the day, but has been afraid to sleep at night for fear that he might try and carry out some of his fiendish designs.

SUPERVISOR C. F. HORNER.

As soon as the fire was extinguished Horner got his automobile under way and went down the road towards San Jose for several miles, thinking that possibly he might overtake any one who had fled in that direction, but he found no one. On his way back he went to Irvington, and there notified his brother-in-law, Constable S. B. Vandervoort, who went immediately to the Horner home and this morning went to Oakland and made a report of the affair at the Sheriff's office.

WHAT HORNER SAYS.

Supervisor Horner was seen this morning by a TRIBUNE reporter.

Speaking on the subject, Supervisor Horner said:

"I do not know who the person is who sought the destruction of my home early this morning.

"I cannot even imagine any one who would do such a thing, because of hard feeling or revenge against me, because I have done wrong to no person.

"Of course, it might have been inspired by envy or perhaps by madness, but, of course, I do not know.

THE HUNT.

"After we had extinguished the flames, I jumped in my 'auto' and started down the road toward San Jose. The only time we lost was when we were putting out the blaze, which did not take long. We traveled at a very lively clip, but overtook nothing. The fellow must have turned off on some of the side-roads.

WE WERE HUNTING FOR A VEHICLE OF SOME KIND, RATHER THAN FOR A MAN ON FOOT.

"The reason for that is because, when my wife discovered the flames, she cried out aloud to our neighbors, and one of them, Mr. Blacow raised a window in his house and inquired what the matter was.

HEARD WAGON.

"Mr. Blacow recalls that, at that moment, he heard the sound of wheels as of some one driving away. He did not realize the meaning which was afterwards attached to that circumstance when he learned that an attempt had been made to burn my house and the vehicle which caused the noise was probably the one which was taking the incendiary away from the scene.

"My first information on the subject came from my wife, who had been aroused by a crunching sound, which, I believe, to have been made by the one and one-half inch auger, with which the hole was bored.

"My wife aroused me and when I was still uncertain a flame shot up in front of our house and lighted up our apartment. We thought at first, it was the automobile, but on looking out in front of the house we saw the flame enveloping a part of the flight of steps leading up to the front entrance.

"We threw water on the flames and subdued them. Practically no damage was sustained.

"My neighbors here are not partial to firebugs and would like, I think, to catch the men or man who committed this cowardly deed."

RUSSIANS AND JAP'S WATCH

Each Wants Nations to Maintain Strict Neutrality.

PARIS, May 5.—The Japanese representatives here continue to make almost daily visits to the Foreign Office for the purpose of learning what steps are being taken to compel the Russian second Pacific squadron to maintain the neutrality of French waters, and also to prevent the information reaching Tokyo, showing that the Russian warships are receiving supplies from French ports.

These visits have led to the publication of reports that Dr. Motou, the Japanese Minister, has submitted another protest on the subject. This is not correct, the visits as yet not having resulted in a renewal of the Japanese protest. However, it is evident that the Japanese are showing growing solicitude and their repeated visits give a more pressing character to the representations each day concerning the location of the Russian ships.

It appears to be conceded that they are outside the three-mile limit, so the question no longer hinges upon their being within French territorial waters.

BANKS WANT THE HARRIMAN IS IN CONTROL.

Subscribe \$50,000 to Pay Expenses of the Soldiers in Chicago.

CHICAGO, May 5.—Bluntly warned by Sheriff Thomas E. Barrett that troops would be asked for by him if police and deputy sheriffs together proved unable to control violence, strike sympathizers were less in evidence about the many strike-bound stores and stables today. A distinct innovation was made by the police. Chief O'Neill issued a general order to arrest all persons following police-guarded wagons.

"When this strike first broke out," said Chief O'Neill, "persons followed the wagons out of curiosity. Now they follow them to incite riot. There will be no discrimination by the police in such cases in making arrests."

A typical call upon Sheriff Barrett for protection came from James C. Clowe & Sons, manufacturers of plumbing supplies. Deputies were sent to the firm's store with instructions to take seats on wagons sent out by the establishment and aid in keeping the peace. Yesterday the firm's teamsters were stoned and the police were unable to arrest the offenders.

POLICE AT WORK.

Two thousand men constituted the police force available for strike duty today. With this number the police officials expected to guard 1200 wagons—a decided increase over yesterday's total. Renewed confidence was expressed by the police of their ability to exercise a reasonable degree of control.

The fuel supply of the Union Traction Company which controls more than one-half of the street car lines in Chicago, was placed in jeopardy today. Pickets of the teamsters' union were on duty all night to prevent shipments being made to six big power houses supplied with coal by the Peabody Company, an ally of the Employers' Teaming Association. This watch vigilantly continued today.

BRICKS USED.

Bricks and baseball bats were used with blood letting effect today in Dear-

LARGE CROWD.

In defiance of Chief O'Neill's order, issued today, that all persons found following wagons owned by the Employers' Teaming Company, would be arrested, a large crowd surrounded a caravan of wagons that conveyed 100 negro drivers and guards from lodging houses in Custom House court to the Peabody Coal Company's yards at Canal and West Twenty-sixth street. The fifty police who served as an escort, were unable to literally follow the order regarding arrests, but did succeed in forcing the passage of the caravan. A number of bricks were thrown but did no serious injury.

WAGONS SENT OUT.

A number of wagons were sent out today from nearly every retail store in State street. In many cases policemen furnished with light runabout buggies accompanied the wagons. The general resumption of deliveries of goods to residences, though on a greatly restricted scale, was in decided contrast to results on previous days.

The experiment of sending out "flying squadrons," each composed of five or ten deputy sheriffs, was tried today by Sheriff Barrett. It was hoped that by having the deputies mix with the strike sympathizers trouble at the inspection might be averted.

NOT A JEEZ.

For possibly the first time since the strike began, a caravan of coal wagons manned by non-union colored teamsters, traversed the center of the city today absolutely unmolested. The car-

SMITH ANXIOUS TO START

Defaulter Wants to Return to Scene of His Thefts.

ST. LOUIS, May 5.—Upon the expected arrival of the detective from San Francisco who will take back Edward J. Smith, the embezzling Tax Collector, it will be decided whether Smith will be taken immediately to California, or whether the start will be delayed a week.

At police headquarters "it is still stated that Smith is anxious to start at once, and he will be turned over to the San Francisco detective upon his arrival. It is thought, however, the San Francisco officer may decide to rest until next week before returning with his prisoner.

A message was received by Smith, through friends, that his wife is reported to be in more favorable condition. This news elicited expressions of gratification from him.

PHYSICIAN ROBBED

BERKELEY, May 5.—Dr. A. J. Haskins reported to Marshal Volmer today that a valuable camera and a case of instruments had been taken from his office in the Thomas Block.

SAIL TO MEET RUSSIANS

Jap Cruisers Sent South to Gripple Nebogotoff's Ships.

ST. PETERSBURG, May 5.—Admiral Rojestvensky, according to a high naval authority, has sailed south to meet the division of the Russian second Pacific squadron commanded by Admiral Nebogotoff.

The admiralty has information that a Japanese division of fast cruisers and torpedo boat destroyers was sent south for the purpose if possible of crippling or destroying Nebogotoff's ships before they could effect a junction with those of Rojestvensky, and there is reason to believe that the Japanese took up a position in the Straits of Sunda, through which Nebogotoff originally intended to make the passage into the North Sea.

There is also reason to believe that Nebogotoff first approached the Straits of Sunda but finding them too well guarded put about and headed north for the Straits of Malacca, his division lacking the protection of fast cruisers and being at a great disadvantage in meeting torpedo boat attacks.

The admiralty expresses much gratification at the fact that Admiral Nebogotoff has successfully reached the China Sea, but appreciates that the composition of his division renders it particularly vulnerable to a swift adversary, especially as the crews of his ships have not had the training in maneuvering or in fighting practice which Admiral Rojestvensky's crews had while off the island of Madagascar.

No Opposition to Union Pacific Issue of \$100,000,000 of Preferred Stock.

SALT LAKE, Utah, May 5.—The Harriman interests appear to be in complete control of the special meeting of Union Pacific stockholders being held here this afternoon and it is believed that the proposed issue of \$100,000,000 of preferred stock will be approved.

The voting began at 12:45 and the polls will not close until 2:45, but up to 1:15 no opposition to the proposed issue of stock had developed. Judge W. D. Cornish, of New York, vice-president of the Harriman system, and Judge W. R. Kelly, of Omaha, general solicitor, are present at the meeting.

So far as can be learned, there are no representatives of the minority interests recently reported to have been opposed to the big stock issue.

The proposed issue of \$100,000,000 of preferred stock was approved by a large majority.

NO BAIL GIVEN FOR NAN

She Will Probably Not Be Released Until Monday.

NEW YORK, May 5.—Nan Patterson's condition was much improved today. Her recovery from the almost complete breakdown which followed the failure of the jury in her case to agree early yesterday morning began yesterday afternoon and has progressed steadily. She arose to-day at the usual hour in apparently good health and spirit and ate a good breakfast. That she has not fully regained her normal health became evident, however, when she expressed a desire to retire again immediately after eating breakfast. She was very tired, she said, and needed another hour of sleep. She did not wait long enough even to open the letters which came to her in the morning mail. There was a big bundle of letters for the prisoner today and with them a number of postal cards. One of these bore a message urging Miss Patterson to keep up her courage and "be game to the last."

Several other cards bore messages of a similar nature.

Nan Patterson was told today by her attorney that she probably will not be released on bail before Monday.

and the anxiety here will only be completely removed when it is known that a junction has been effected.

The Russ today announced that Captain Clado has been made a staff captain. Clado was Admiral Rojestvensky's chief tactician until the North Sea incident.

THREE ARE KILLED.

TRINIDAD, Colo., May 5.—John O'Neill, James Rowe and Jack Cavillito were instantly killed by a cave-in in the Starkville coal mine. Their bodies were buried under tons of rock in a drift a mile from the mouth of the mine.

SMITHS WILL NOW GO FREE

Indictments Against Nan's Relatives Have Been Quashed.

NEW YORK, May 5.—Judge Foster, in the Court of General Sessions yesterday quashed the indictments charging conspiracy against J. Morgan Smith and his wife, Julia Patterson Smith. He gives the District Attorney permission to resubmit the case to the Grand Jury. The Smiths were arrested in Cincinnati and are now in the Tombs prison here.

The Smiths will remain in the Tombs pending the decision of the District Attorney, as to whether they will resubmit the case to the Grand Jury. The counsel for the Smiths said that after twenty-four hours he will move for their discharge if the District Attorney has not by that time decided to resubmit the case and fixed the time for doing so.

CRITICISES JURY.

In quashing the indictments Judge Foster severely criticised the Grand Jury. "The minutes show no evidence whatever of conspiracy on the part of these defendants," he wrote, "and the Grand Jury has no right to find an indictment where there is no evidence to support it."

"I can only explain the fact that an indictment was found on the theory that the defendants, who were absent from the state, were needed as witnesses in an important case."

BELIEVES WITH DR. OSLER AGED MAN WANTS TO DIE SO HE TRIES CHLOROFORM.

W. L. Smith, aged 86 years, picked up in an unconscious condition last evening at Fifth and Washington streets, and removed to the Receiving Hospital, confessed this morning that he had attempted suicide by drinking two small ten-cent bottles of chloroform. He had never heard of Dr. Osler, but he said to a TRIBUNE reporter this morning:

"When a man starts on his eighty-sixth year he is not of much use. I am only in the way of younger men."

"Many is the man that would give his thousands to have the health and vigor of the old man who is tired of living longer, although infirmity has made no great inroad beyond the gradual diminishing of his powers."

"No, I don't want to get well," he said. "I have seen all I want of life and am ready to go. I used to be on the Mississippi in the days described by Mark Twain, and a worse place for a young man I do not know. Everything was wild then. The big steam-

ers did all of the transportation in those days. I went down there in 1840 and came to California in 1853. I saw the mines and I knew California before much of it have even been seen by white men."

Smith says that he was never married, and never belonged to any society.

"I can still work," he said, "but my eyesight is getting bad and I cannot see well enough to do it well. I like work and have done it all my life. A park is a poor place to snuff chloroform, or I would not be here to talk. I think they must have adulterated it at that."

According to Dr. Stratton the drug did him little harm and it is probable that he will soon recover. His skin is tanned by the sun of many summers and his hands hardened by work. An effort will be made when he is able to go to get him a home at the County Infirmary.

Piso's Cure for Consumption also cures Coughs, Sore Throats and Asthma.

WILLIAM B. BARBER HAS PASSED AWAY.

THE LATE WM. B. BARBER.

Son of County Tax Collector James B. Barber Dies in Alameda.

William Burton Barber, son of Mr. and Mrs. James B. Barber, of 1421 High street, Alameda, died last night at 7:45 o'clock at the Alameda Sanatorium, after an illness of about three weeks.

The deceased had just passed his twenty-fifth year and had already entered upon a successful career as an engineer in one of the best paying mining properties in Alameda county. For this calling he was specially fitted by reason of natural inclination to geological investigation and by a course of study in that branch as also in mining engineering at one of the large universities of the State.

The untimely ending of this promising young man is a cause of regret throughout Alameda, because it was there he was born, it was there he was educated and it was thence he went to the alma-mater which specially prepared him for the career the fruition of which death has rudely prevented.

It is all the more to be regretted, because the young man was the only son of County Tax Collector J. B. Barber, who resides in Alameda, whose every thought was centered in the young man and to whom, as well as to his sorrowing wife, in this great bereavement, every heart goes out in loving sympathy.

There is another upon whom Mr. Barber's death bears as an affliction, and that is Miss Freda Dunlop, of Diamond Springs, El Dorado county, Cal., to whom he was to have married almost at the very hour at which he was taken to the Sanatorium.

Two Oakland Ladies

begin to make clothes for the children's vacation about a week ago. One has already completed two washable suits, and is proud of her work—the other is still struggling with the first and wishing she were rich enough to get along without having to do such work.

One is contented, the other is discontented.

One is using a Sewing Machine that came from our store—the other is not. And the machine was merely rented for a month, but its value was so pronounced that after a couple of days, the lady said she would not dream of sewing any more without one. So now she's paying just about as much as rent and in a few months will own a splendid sewing machine.

Are you the other lady? If so, follow a good example.

of youth with none of its belittling weaknesses. He had the courage of his conviction, was abstemious to that degree that even when it became necessary to give him stimulants while ill, he sought to have them set aside, because he had promised his mother, he would never knowingly touch a glass of liquor.

In furtherance of his idea to lead a model life, he became in early years, a member of Company A of Boys' Brigade of the Presbyterian Church, Alameda, and rose from the ranks to the captaincy, which office he held for seven years.

He was a member of Stanford Section of the Geological Society of American Universities, and one of the most promising of the American Association of Mining Engineers.

The funeral will probably take place Sunday afternoon.

CHICAGO STRIKE

(Continued From Page 1.)

avan consisted of sixteen wagons. Not a jeer was heard as the wagons moved along the streets.

TRIED TO ASSAULT.

Delivery of goods in the residence district, though much enlarged today, was not all smooth sailing by any means. At Forty-sixth street and St. Lawrence avenue one hundred persons attempted to assault a non-union driver. Using a heavy whip desperately upon his assailants and aided by two policemen, the driver saved himself from being beaten, although showered with stones, sticks and tin cans. A patrol wagon load of police dispersed the crowd after making four arrests.

Following a walkout of teamsters of Heath & Milligan, paint manufacturers, the drivers of the National Lead Company became involved in a spread of the strike. The Lead company drivers refused to deliver goods to houses under the strikers' ban. Similar instances of relatively minor additions to the idle thousands continue to be reported.

WANT MILITIA.

Labor leaders and their followers were considerably stirred up today over the action of the Chicago banks represented in the Clearing House Association passing resolutions urging sending the militia to Chicago, and raising \$50,000 to help the Chicago Employers' Association in its fight. Efforts, it was said, would be made to find a "fair" bank in Chicago, and if such is found it is planned to have the laboring men withdraw savings from banks under the ban and deposit with the bank not furnishing funds to fight the strikers. President Shea of the Teamsters' Union, said today:

"If the plan is adopted, it is probable that union men with about \$25,000,000

in savings deposits will be asked to take them out."

PRODUCE BUSINESS.

The produce commission business in South Water street has been so crippled that many of the merchants discussed the advisability of closing their doors tomorrow and declare a lockout until the strike is settled. An impromptu meeting was held, but the majority voted not to take such a step. George R. Lynn, who called the meeting, said:

"Should this strike last much longer we will all probably have to go out of business. The business men in this street are losing between \$75,000 and \$100,000 daily. Shippers have been so alarmed about the strike that they have abandoned Chicago as a shipping place."

President Shea of the Teamsters' Union issued a statement claiming that the Employers' Association by bringing colored men from the South is trying to incite violence in order to crush unionism. There was less rioting than yesterday and fewer people were injured.

RUSSIANS AND JAPS WATCH

(Continued From Page 1.)

But the Japanese information indicates that the Russians while they are outside neutral limits, keep up communication with the shore, thus retaining the practical advantages of remaining inside neutral waters.

Admiral Dejeunieres' departure from Saigon with a portion of the French squadron was for the purpose of carrying out the strict orders sent to him from here against permitting any infringement of neutral rights, particularly along the coast of Cape St. James, where the Japanese information indicates that the Russians have been secretly taking supplies on board.

A despatch to the Havas Agency from St. Petersburg says that Admiral Rojestvensky has informed the Russian Admiralty of the presence of Japanese warships in the neutral waters of the Island of Borneo. If the reports are verified, it is added, Russia will protest to The Netherlands government.

BENEFIT AT THE BELL.

On May 19 a benefit will be given at the Bell Theater in behalf of the widow of the late Policeman George W. Brown, who was murdered by an unknown thug. The price of the tickets will be 25 cents. All of the proceeds will go to the widow.

STORM SWEEPS OVER ST. LOUIS

ST. LOUIS, May 5.—A severe thunder and windstorm that swept over St. Louis last night resulted in the death of two persons and the injury of eight others, with heavy loss in damage to property.

The dead: GEORGE BENTON, aged 7, drowned.

CHARLES KROEGER, farmer, Edwardsville, struck by lightning.

Along the East St. Louis levee a mile of telegraph poles were blown down. Along the river Desperes houses were flooded to the second story and the occupants were taken out in boats.

PROPERTY IS TRANSFERRED

SAN DIEGO, May 5.—The announcement of plans to erect a \$100,000 hotel on the site of the historic Horton House in this city, has been followed by important transfers of property. Four large blocks in the heart of the business portion have changed hands within 24 hours, Los Angeles capital securing the properties. The building permits of the first four months of this year has far exceeded all previous city records.

WANT MEETING

BERLIN, May 5.—The Foreign Office officials hope that plenipotentiaries representing the United States and Germany will meet early in the autumn to negotiate a commercial treaty and that the exchange of preliminary proposals will take place some time late in the summer. Although Germany's communication of March 11 was altogether a definite statement that the tariff agreement with the United States of July 10, 1900, would terminate by March 1, 1906, yet it is not called a denunciation, which is not necessary before December 1, 1905, or after three months' notice.

WOMAN FAINTS

WASHINGTON, May 5.—Arraigned as Alice Nissen, the woman claimed to be the Baroness de Vortis Salmo of Austria today fainted in the police court after pleading not guilty to the charge of grand larceny and waiving examination. The woman sat pale and trembling as the information was read charging her with taking about \$500 worth of clothing. After the proceedings had been closed the prisoner collapsed completely. Upon being revived she was taken back to the House of Detention.

FOUND DEAD

Charles H. Eva, a man about sixty-five years of age, was found dead in bed this morning in his room in the Overland house. There is no indication that the man committed suicide, death apparently being due to natural causes. He had resided at the place where he died for the last fourteen years. He was a native of England and was a machinist by trade. The coroner has taken charge of the remains.

GIVEN FREEDOM.

IS ARRAIGNED.
George W. Marsh, a youth of 18 years, was arraigned before Police Judge Smith this morning on a charge of stealing bicycles, which is a felony. His examination was set down for May 9. The police believe they have enough evidence to connect the young man with the theft of at least six bicycles. Marsh pretends ignorance as to the theft of the wheels, stating that they were given to him by another person to dispose of.

HAYWARDS WANTS THE U. C. FARM.

PRESIDENT BROWNING OF THE HAYWARDS BOARD OF TRADE.

HAYWARDS, May 5.—Four representatives of the Board of Trade here, President Browning, Mayor Meyer, L. K. Strowbridge and I. B. Parsons, will go to Oakland tonight to visit the Board of Trade of that city. The trip is to be made at the special request of the Oakland Board to explain the advantages of the neighborhood of Haywards as the proper site for the university farm. As Haywards is the only place in Alameda county that is making an effort to get the farm, it is felt that the aid of the Oakland business men will gladly be given.

Three different tracts of land are available for the farm, one offered by the Meek estate, another by the Stanton estate, and the third by N. Sorenson and other farmers adjoining.

Over 500 acres can be had in either tract. The soil in each is claimed to be rich and varied enough to show the various kinds of farming in California. There are several hundred acres of hill land in each to illustrate different phases of pasture, and is suitable for raising stock. A definite price has not been set on any of the offers, but it is understood that a reasonable sum will be asked.

The Board of Trade wrote to the Oakland body several days ago and received a reply yesterday asking the committee to attend the meeting tonight and speak on the subject.

SANTA FE PLANS TO IMPROVE

Will Spend Ten Million
Dollars on the New
Cut-Off.

SAN FRANCISCO, May 5.—President E. P. Ripley of the Santa Fe, who is still on the coast, has announced that there will be spent by the company \$10,000,000 in building a cut-off for the company's new overland line to California in order to avoid mountain grades and reduce the running time of trains. The western end of the cut-off will be at Belen, a station on the present main line in New Mexico about twenty-seven miles south of Albuquerque while the eastern end will be in Texas, a station on the company's line running north and south between Kansas and the Pecos Valley country in Western Texas.

HIGH SCHOOLS TO HOLD DEBATE

The ninth annual debate between the Oakland High School and the Berkeley High school teams will be held this evening at the Common School Assembly Hall, the committee in charge being Herbert Shuey, Charles Reed and C. Stone. The judges will be Rev. E. R. Dille, Professor William Carey Jones and Professor William H. Gorrell. The temporary chairman of the evening will be C. E. Brooks of Oakland, while the permanent chairman will be B. A. Lombard of Berkeley.

The question to be debated is "Resolved, That the United States should hold territory permanently only with the idea that it should ultimately receive statehood."

The following are the two teams: Affirmative, Berkeley—Sam F. Batdorf, George D. Smith, Chauncey Eldridge. Alternate—Stanley Henderson. Negative: Oakland—Robert H. Clark, Harry F. Brunning, Warren H. Pillsbury. Alternate—George Hatfield.

GOVERNOR DAVIS HAS MALARIA

WASHINGTON, May 5.—Secretary Taft today cabled Governor Davis at Panama, to return at once to the United States, placing Col. Goings in command of the administration of the canal zone until the arrival of Governor Magoo. Governor Davis is suffering from malaria and his physician advised him to leave the isthmus to recuperate. He has resisted their appeals, however, fearing that his sudden departure at a time when the health conditions on the isthmus are adverse would be misunderstood.

BRANDEGEE IS THE NOMINEE.

HARTFORD, Conn., May 5.—The choice today of Congressman Frank B. Brandegee, of New London, to be the Republican candidate for United States Senator to succeed the late Orville H. Platt, came at the end of a series of balloting during a session which lasted twelve hours. The caucus of Republican members of the Senate and House of the General Assembly was finished at 2:30 a. m. The nomination was made on the Thirty-seventh ballot.

GAVE A LECTURE ON MODERN BUSINESS

"The Science of Modern Business Building" was the subject of an interesting lecture delivered last night in the common school assembly hall by the Hon. A. P. Sheldon. Mr. Sheldon spoke for the Merchants' Exchange to a good sized audience.

importance of confidence between the man in business, his employees and the public with which they deal. He said it was a mistake to think that success depended "on doing others good," but that it did depend on doing good. The fruit of his experience was that it is the tendency of modern business building to put a premium on honesty, and he said that big firms in the East were always on the lookout for employees that could with honesty inspire confidence in the purchasing public.

CRUISER LEAVES.
ST. PETERSBURG, May 5.—The Russian armored cruiser Gromboli, it is announced, has left Vladivostok.

BEARS LEFT ALONE BY PRESIDENT

GLENWOOD SPRINGS, Colo., May 5.—The President's hunting program has been shortened again, this time by heavy storms. Four days of snow, rain and hail and sleet have made the mountain trails so slippery that the oldest guides hesitate

to ride them even when walking their horses. Plans for removing the camp have been abandoned and the grizzlies in the Garfield creek country will not be disturbed by the President. He will hunt from the present camp today and tomorrow and will then come to Glenwood Springs, probably via Newcastle.

GOES FOR A CRUISE.
CRONSTADT, May 5.—The Russian battleship Slava, which has been undergoing repairs, left her dock today for a trial cruise.

CRIED, HE WAS SO ANGRY

MAN ARRESTED WANTS POLICE—MAN DISMISSED FROM FORCE.

H. Davis was before Police Judge Smith this morning on a charge of violating the ordinance preventing the washing of buggies on the streets. The arrest was made by Patrolman Cox in front of Mr. Davis' home on Fifth street. Mr. Davis is very indignant at being arrested and is already attempting to have Cox discharged from the police force. He called on City Attorney McClellan and urged that official to file charges against Cox. Mr. Davis said that he had been a resident of Oakland for twenty-five years and that he had never been arrested. He further stated that he always paid his taxes and that it was an outrage to arrest a respectable citizen. According to his story, he desisted from washing the buggy in the street when informed that it was against the law. He says Cox later returned and arrested him. In telling his story to the City Attorney Mr. Davis was so angry and indignant that he could not restrain his tears.

WOMAN IS AWARDED ALIMONY

Clara Gould, wife of H. Gould of the H. Gould Company, that operates the Escondido Mills at Fourth and Washington streets, was awarded \$35 a month alimony and \$150 attorney's fees and \$25 costs of suit this morning by Judge Waste pending the hearing of her suit for maintenance. She has made complaint of her husband, Henry Gould, whom she accuses of having half-starved her and been so cruel as to cause her to weep her eyes out. She is represented by Attorney Frederick Whitney, while District Attorney John J. Allen, an old friend of the Gould family, appeared in court this morning on behalf of the husband.

It is alleged on behalf of the husband that he has been blind for five years and is unable to see, and that he could not have been guilty of the cruelty alleged, as his wife is an able-bodied woman. The matter was not gone into this morning, as this was merely a preliminary order. Judge Waste said that she would need money to live on, as she was not staying at home. Inquiry was made into the value of the holdings of Henry Gould and the value of his interest in the company. Jesse Gould, one of the sons, testified that he thought the stock was worth about \$12 a share. He arrived at this conclusion by valuing the mill and the land at \$16,000, the outstanding accounts at \$3,000 and some other small items, totaling up a sum of \$25,000. He stated that his father owned about \$12,000 worth of the stock and had besides this the house on Eleventh street, which is valued at \$3,000, making his worth individually about \$15,000. On this showing the order of alimony and counsel fees was made.

IN SOCIETY

MISS ANNA FRANCKS, ONE OF THE SOCIETY GIRLS WHO SERVED TEA THIS AFTERNOON AT THE DEDICATION OF THE NURSES' HOME.

HUNDREDS ATTEND FABIOLA RECEPTION

FORMAL DEDICATION OF NURSES' HOME—MISS STERETT'S ENGAGEMENT.

The formal dedication of the Nurses' Training Home on Broadway, opposite Fabiola Hospital took place this afternoon and hundreds of interested people viewed the splendid new institution. Through the kind forethought of Mrs. Isaac L. Regua, every precaution has been taken for the health, comfort and happiness of the prospective occupants. Miss Julia Morgan has the credit of being the very capable architect and the attractive, sunny and well lighted building occasioned the highest praise from the visitors today.

The program of exercises was as follows, presided over by Senator George Perkins. Senator Perkins was presented by the president of Fabiola, Mrs. John Yule. Senator Perkins speech was followed by a song by Clarence Milward and the next number on the program was an address by Rabbi Friedlander. A vocal solo by Mr. McCormack of Alameda was followed by an interesting talk by T. L. Barker, who has always presided at former Fabiola events and would have been chairman on this occasion had he not been prevented by illness from assuming the duty. The address by Dr. F. K. Morrison was followed by a song by Miss May Coogan, and the following numbers were a talk by Rev. Charles Walkley and a song by Clement Milward.

Dr. J. K. McLean was one of the prominent speakers of the day. Dr. McLean assisted at the dedication of the first Fabiola building and has followed and encouraged the good work steadily for many years.

The one incident of great regret to the managers of Fabiola and all those interested in the great work was the absence of Mrs. Regua, who, of course, was unable to be present at the exercises today. Mrs. Regua's attention to every detail calculated to promote the interests of the nurses and insure proper recreation for them elicited enthusiastic praise from the crowds of visitors.

Mrs. S. A. O'Neill was chairman of the reception committee and was assisted by the managers of Fabiola and a bevy of society girls who served tea.

DANCING CLASS.

The Saturday Evening Dancing class will hold its closing party for the season this evening in Reed Hall and the affair is the center of much interest. The hall will be prettily decorated with flowers and ferns and the electric lights will glisten under vari-colored shades. Miss Alys Miller is the instructor of this class for young people.

The patronesses include Mrs. F. B. Ogden, Mrs. E. H. Ehrenberg, Mrs. J. H. Harrold and Mrs. Hall.

EBELL LUNCHEON.

Next Tuesday will be the regular luncheon day at Ebelle and a delightful afternoon is anticipated. The presiding hostess will be Mrs. John Yule and Mrs. Newton A. Koser will have the musical program in charge.

The luncheon decorating committee includes Mrs. A. Vandergraw, chairman, Mrs. Wickham Havens, Mrs.

S. Stratton; sketch, "Her Neighbor's Creed," written by Margaret Cameron.

on, Miss George Cope, Mr. William Barton.

AN ENGAGEMENT.

An engagement of great interest to society was made public yesterday, namely, that of Miss Ella Sterrett and Edwin Barbour. Miss Sterrett is the charming niece of Mrs. George H. Wheaton and has made her home with her aunt for several years. She is one of the most popular girls in society and is sure to be the motif for much entertaining.

Mr. Barbour is an Eastern man well known in business circles and after the wedding in the fall the young people will make their home here.

LARGE RECEPTION.

The reception given last evening at the Home Club in honor of Brigadier-General and Mrs. Frederick Funston was an elaborate affair, scores of guests enjoying the delightful gathering.

The receiving party included: Mr. and Mrs. F. M. Smith, Mr. and Mrs. J. G. Johnson, Mr. and Mrs. G. B. M. Gray, Mr. and Mrs. S. J. Taylor, Dr. and Mrs. G. E. RECORDER GRIM FILES HIS REPORT

County Recorder Grim has made his report of the work of his office for the past month. The month of March was the heaviest month in the history of the office, but according to the figures April was not far behind in returns. In fact there were twenty-two documents more filed in April than in March but the receipts were \$3,170 less. The returns for April show that there were filed for record 2423 documents. The fees collected from these amounted to \$4,320.10. The expenses of the office were \$2,285.53 and the net amount turned into the county treasury after all expenses were paid was \$1,034.57.

Genuine Roger's Teaspoons in different designs

55c set

—usually sold for \$1.50 set. These are genuine Roger's A. A. goods; made of solid white metal, extra well plated and have a reputation for good value all over the world. No more than two sets to one customer.

Why it is Possible

to sell these high-grade teaspoons at such a startling price as 55 cents per set. It's quite plain—they are made by an independent manufacturer, outside the Silver Plate Trust and as the trust is weakening, this maker is cutting prices more than ever. By taking an immense quantity we got a still further reduction, and by paying cash there was another discount; and you get the full benefit of it all—We are paid with your good will.

Remember—Saturday Night Only

Saturday, May 13, Special Sale of Table Spoons
Saturday, May 20, Special Sale of Table Forks

BROKE HIS PROMISE TO HIS BRIDE.

Trouble Between Swedes and Italians in West Berkeley.

BERKELEY, May 5.—War between the Italian and Swedish settlements in West Berkeley developed last night because of Joseph Cananella's failure to make good his promise to his Swedish bride that he would soon fall heir to a \$15,000 legacy.

The young Italian was wedded to Miss Lena Hansen nearly a year ago. The Hansens constitute a family of Swedish in West Berkeley.

The young bride declares that she was duped by her husband and that the declaration that he would soon be an heir to \$15,000 was all "hot air."

He has failed to support her, she says and he has had to return to her people's home.

A council of war was held and it was decided to move on the young Italian's house and remove the furniture to the Hansens' abode.

When that was attempted a battle royal ensued.

It was Italian versus Swede, the Swedes apparently triumphed and secured the furniture.

This morning both parties were before Justice Edgar seeking warrants for the arrest of each other on the charges of battery.

Judge Edgar refused them all, referring them to the civil courts for satisfaction.

GOULD SAYS WORK WILL BEGIN AT ONCE

Western Pacific Road Will Soon be Built—Southern Pacific and Santa Fe Active.

WASHINGTON, May 5.—George Gould, who is here to attend the session of the International Railroad Congress, is a guest of Stuyvesant Fish at his home in this city. Gould expects to make a short stay, and his intention is to tour Europe before long. Regarding the plans of the Western Pacific Railroad, which project recently floated its bonds for \$50,000,000 in New York through the influence of the Gould combination, Gould said that construction work would be commenced immediately.

It is given out that while the Western Pacific is allied to a certain extent with the Gould interests it is by no means a part or parcel of the Gould system. In all traffic agreements it will give the Gould system the preference as long as

there is no clash with the interstate commerce law. Gould and Hill seem to be very close and have had frequent conferences. The rumor is current that an effort is to be made by the promoter of the northern road to form some sort of combination that will connect his system with lines in California.

It is probable that the people of Oakland and San Francisco do not realize how important a factor the Western roads have become in the transportation business of the world's railroads. Among the delegates to the present railroad congress there seems to be unanimous faith in the belief that the Pacific Coast is going to reap tremendous benefits from the future trade development of Asia, and it would not be surprising if several railroad deals of great importance to California were consummated during the present conference of the magnates.

RAILROAD WAR.

SAN FRANCISCO, May 5.—The Southern Pacific and Santa Fe are perfecting plans for a bitter fight for supremacy in the lower Sacramento valley. The approach summer, according to present prospects, will witness greater activity in the matter of railroad construction by both of the big transcontinental lines than the Sacramento valley has witnessed in many years. Two lines paralleling each other through many miles of a rich agricultural and fruit-growing section now reached only by river boats, are to be built by the rival roads. The Santa Fe plans to do more than this. It will build into Sacramento and Marysville, and possibly even as far as Chico, according to information that was given out yesterday.

President Ripley of the Santa Fe officials has returned yesterday from a several days' observation trip through the valley country which the Santa Fe plans to gridiron with its rails. With him were Vice-President E. D. Kenna, Captain A. H. Payson, W. A. Bissell, John J. Byrne

and several other gentlemen. The railroad officials visited Sacramento, Marysville, Chico and other points, and during part of the time were accompanied by John Martin, vice-president of the California Gas and Electric Company, which fact has given rise to the supposition that the Santa Fe is figuring on the construction of electric lines as feeders for its main line.

The California Gas and Electric Company now supplies electric power, generated at its various water power stations in the high Sierra, for the operation of all of the electric lines in Sacramento and all of the bay country except San Francisco. Beginning with next year it will also supply all of the power needed for the operation of the electric lines of the United Railroads. It is said that the company is anxious to supply the Santa Fe with electric power for the operation of the lines it is planning to build in the Sacramento valley, and President Ripley is considering the proposition.

As has previously been mentioned, the Santa Fe proposes building a line from a point on its present main line near Antioch, across the river at Chico, and northward through the fruit-growing section on the east bank of the Sacramento to Sacramento and Marysville. That Sacramento and Marysville are not the only points which the Santa Fe desires to reach is shown by the visit paid by President Ripley and his party to Chico and other important valley points.

The Southern Pacific is not idle while these plans of the Santa Fe are in process of formation. Several years ago the Southern Pacific took over the Sacramento Southern, a corporation formed a year and a half ago with trust company directors to build a road from Sacramento to Antioch by way of Walnut Grove. The information was given yesterday that this line is to be built immediately from Sacramento as far as Walnut Grove. Later it may be extended farther south. It is thought that the construction of the line from Sacramento to Walnut Grove will answer the present needs of the company, by giving the company better facilities for handling the heavy fruit shipments from the river district below Sacramento, which the Santa Fe purposes invading both by boat and rail.

Thus the fruit growing section on the east side of the Sacramento river, which has never known the advantage of railroad facilities before, has suddenly become the bone of contention of the two big transcontinental railroads, and it is given the advantage of competing lines as quickly as the construction work can be done.

It is probable that the Southern Pacific's line will be built some time in advance of the Santa Fe, as the latter company thus far has not obtained permission from the War Department for its proposed bridge at Chipus Island. In an meantime, however, the Santa Fe will make a spirited bid for fruit traffic along the river this summer with the aid of a ferry boat recently completed for that service.

ELECTRIC ROAD.

REDWOOD CITY, May 5.—Whatever the Southern Pacific Company or the Western Pacific Railroad may do in the

way of transportation for the coastwise districts from San Francisco to Santa Cruz, an electric railroad, financed by independent capital, will be a reality within six months. More than \$20,000 has been expended in surveys and preliminary work, and it is estimated that between \$2,000,000 and \$3,000,000 will be spent to equip and complete the railroad for operation.

The surveys are now practically completed and rights of way from San Francisco to Santa Cruz have been secured. The project will be a reality within six months. More than \$20,000 has been expended in surveys and preliminary work, and it is estimated that between \$2,000,000 and \$3,000,000 will be spent to equip and complete the railroad for operation.

The promoters promise an hourly service if traffic warrants. The project and its approaching fulfillment have created the greatest enthusiasm in the entire Halfmoon Bay district, which has been without transportation facilities except those of the most primitive character. While the electric railroad people are up and doing the Southern Pacific Company and the corporation represented by John Rogers are by no means idle. Thirty-two options, bonding land out of Santa Cruz, have been filed by the Southern Pacific Company. The land thus secured gives the Southern Pacific a right to pass through about eight miles out of Santa Cruz. Some of these options are on land which must be used by the people for whom housing is a serious problem. In no way concerned, however, either over this move of his rivals or because of their marauding on the Santa Cruz, the promoters held by the Southern Pacific Company will expire about the middle of July.

MISS NEWLANDS TO BE A BRIDE

STRANGE INCIDENT AT HIS FUNERAL

Tells of What Happened During the Burial of German Poet.

An interesting letter has been received by Albert Haynes of 1235 Linden street in regard to the coming celebration in honor of the memory of the famous German poet, Schiller, to be held Sunday afternoon in the University of California Amphitheater. The communication was written by T. F. Marshall of 310 San Pablo avenue and is as follows:

"To Albert Haynes, Esq., 1235 Linden street, Oakland.

"Sir: The apology I make for troubling you with this communication will, I trust, be sufficiently satisfactory—namely, my great admiration for the name and genius of Frederick Schiller.

"My object in writing to you is because your name has been suggested to me in connection with the coming Schiller celebration, and though the incident may be known to very many people, yet, fearing it may be forgotten or overlooked, I wish to draw attention to it here, as the occasion is eminently appropriate.

"The Burial of Schiller." When a boy, in a journal in the possession of my family, under the above heading, I read of the following remarkable phenomenon:

"The day was tempestuous and extremely dark, and without one rift in the clouds, but just at the moment that the coffin containing the remains of the illustrious poet was about to be lowered into the grave, the clouds parted and a bright gleam of sunshine fell upon the coffin, and then all was dark again."

"This very remarkable incident deserves recording, and it is my motive for writing it here.

"That this great and comprehensive genius deserves all the honor that can be given to his memory, not alone by his compatriots, but likewise by those not of the German race, like my humble self, goes without saying, for his all-embracing humanity and ennobling ideals for the elevating of the whole human race are recorded in his works.

"Though you are perfectly familiar with all that relates to the poet, yet

the following quotation may not be out of place:

"He was pre-eminently the national German poet," says Wolf von Scherbrand, and his influence abroad has, perhaps, been greater than any other German writer, with the possible exception of Heine.

"Herr Kuhnmann thinks that Schiller outstripped all predecessors in the perfection of dramatic art and was the greatest and most perfect of born tragic poets." Herr Scherbrand holds him to be the 'German national poet.'

"This is seen by every test. First and last, millions more of his works have been sold than any other German writer. His poems are to be found in nearly every German home, however humble, by the Rhine or the Hudson, the Danube or the Mississippi, etc.

"I am, sir, very sincerely yours,

"T. F. MARSHALL,

"310 San Pablo avenue,

"Oakland, April 30, 1905."

S. P. IS IN THE FIGHT

Meets the Cut of Santa Fe and Goes One Better.

LOS ANGELES, May 5.—Another move in what may prove to be a lively passenger rate war from California to the East has been taken by the Southern Pacific in announcing that it not only would meet the recent action of the Santa Fe in declaring a rate of one fare for the round trip to Chicago and Kansas City, but would extend the privilege to various other cities.

The Southern Pacific now offers round trip tickets on certain dates in May, June and July at \$60 to Missouri river points; \$67.50 to St. Louis, Memphis, and New Orleans; \$70 to St. Paul and Minneapolis, and \$72.50 to Chicago.

Tickets at these rates will be good for return within sixty days from date of sale, and probably will have stop-over privileges in each direction, although this matter has not yet been determined.

The Santa Fe started the fight several months ago when it announced that it would sell round trip tickets to Chicago and Kansas City at one fare on certain dates in addition to the one fare rate that had been agreed upon by Transcontinental Passenger Association lines for conventions in the East.

This action was taken in the regular manner provided for members of the association, but apparently was unexpected at the time by other lines. It was stated at that time by the Santa Fe that it wished to extend the low rate privilege to patrons, who might desire to go East, but who had not attended the conventions at remote points.

Custom Clothes

with

Union Label

After a close examination of our shop by the investigation committee of the United Garment Workers, we were passed upon favorably, and the label given us.

From now on the above label will appear on all clothes made by us. Know what that means?

It means that none but white skilled labor is employed in the making of your garments, under the most sanitary conditions.

Union men can now have their clothes made to measure for a price within reach of their purse. Other tailors always ask from five to ten dollars more for union-made. We don't. No extra charge tacked on here. You pay but one price for suit or overcoat bearing the union label.

TWENTY COUSINS GET HIS MONEY

The heirs of the late John Virgil of Niles, now living scattered over the Eastern States, have shown their right to his property and this morning Judge Ogden made an order distributing to twenty cousins of his \$108,51. This money has lain undisturbed in the county treasury for the past five or six years and it was only recently that by hint of advertising in Eastern papers that a trace of the family was found by Attorneys.

Darwin C. De Golia and uncovered the romance of Virgil's life. According to depositions sent by these cousins, Virgil's mother was Mathilda Pearl, one of the original Acadians who was taken from their happy homes in Nova Scotia and strung along the shores of the Atlantic. With her brother Thomas and Samuel she found herself out at St. Augustine, Fla. and there John Virgil was born, his father being Maxellito Lopez. The child was illegitimate and was finally taken by Dr. John Virgil to New York where the lad adopted his name.

In early days he came to California and in the days of the gold excitement he did a thriving business caring for the wants of the gold seekers at his hotel at Niles which was on the direct route to the mines for those who left San Francisco and went by land. The road lying through Haywards and Niles into the Livermore Valley and on to Stockton.

He never married on account of his birth according to letters he wrote many years ago to relatives and when he died the left no wife and his property was taken by the Public Administration and after the estate was settled up the money turned into the County Treasury.

Chicago and Warsaw Compared.

The educated Russian reading of the occurrences in Chicago during the past few days will probably contemplate the story of the lawless outbreak, with its concomitants of rioting, street fighting and murder, in much the same spirit as the American reading of the recent riots in Warsaw, the capital of Russian Poland. A comparison is not altogether to our credit. It certainly does not show that free America has so much to boast of over Russia. The dispatches say there was less rioting yesterday than on any of the preceding three days, nevertheless there was fighting all over the city and a long list of casualties. Here is a partial list of those reported by the police as being treated for hurts at the various hospitals:

Otis Keith, non-union teamster, thrown under street car; head cut and body bruised.

Charles Rieblin, a bystander, knocked down by a rock thrown during a riot, skull fractured, will die.

John Ransbury (colored), shot in left foot by barn boss; not serious.

Adolph Schmit, St. Louis, non-union driver, beaten until unconscious; rescued by police.

Mrs. W. Claret, shot in neck by a rioter while standing in her doorway; will recover.

James Jackson, non-union driver, beaten by mob; head and body terribly bruised.

Robert Nichols, non-union driver, struck by chunk of coal while driving a team in Wabash avenue, fell off seat, skull fractured by wagon wheel; may die.

Charles Stewart, beaten by mob; rescued by police.

Alfred Holloway, badly beaten by mob; condition serious.

William Fox, knocked down during riot and trampled upon; will recover.

William Hunt, rioter, beaten to insensibility by policemen during downtown riot.

Policeman James O'Connor, head cut with a stone.

Policeman John Sullivan, bruised by stones.

Policeman Jacob Schwartzburg, hit on the head by a brick, probably concussion of the brain.

Michael Howard, rioter, shot by Policeman Quinlan in the left hand while endeavoring to escape arrest.

Cornelius Calahan, rioter, head cut by blow from a policeman's club.

A. Mottiewitz, peddler, beaten by a mob because he was not a member of the Teamsters' Union; badly cut and bruised.

Policeman Andrew McLaughlin, badly bruised about the head and chest by bricks.

John R. Smith, colored butler for a department store, beaten by a mob on Grand avenue. His horses, wagon and goods were taken away by the mob.

Abner Jones, colored butler for Mrs. A. M. Ellis, 2734 Prairie avenue, taken for non-union man, beaten by a mob and knocked unconscious with a stone on the steps of Mrs. Ellis' residence.

William Dobb, colored waiter, dragged from a Wentworth avenue street car and beaten by a mob, which took him for non-union man.

Nelson Tomy, colored cooper, beaten at the same time as Dodd, and for same reason.

In a riot last night Thomas McCracken was stabbed in the neck and beaten over the head with revolvers. In an attack upon five coal wagons belonging to the Standard Coal Company while they were passing Harrison and Desplantes streets volleys of stones were hurled at them and several of the policemen and drivers were struck. A mob attacked a peddler named A. Mottiewitz (how like Poland the name sounds!) because he could not show a union button.

In the dispatches from Chicago printed in the Sunday papers appeared this paragraph introductory to a long detailed account of rioting.

"Turbulence and rioting leading to the use of revolvers, knives and slung-shots, the shooting of four men and the injury of a score, raged through the downtown streets today. It began before a wheel was turned by the employers' teaming camp—when the colored men imported to take the reins laid down by the striking teamsters were marched under police escort from their lodging places to the barns of the new non-union concern."

Every day since the papers have been filled with accounts of similar doings in the second city of the United States.

Compare this record with the following extract from a Warsaw dispatch published last Tuesday morning:

"The first bomb throwing occurred at 9:30 o'clock tonight when a bomb was thrown into a Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed and two women who were leaving the station at the time were severely wounded by the explosion of a bomb. Cossacks and infantry fired a number of volleys, and it is reported that many persons were killed or wounded. Troops surrounded the whole neighborhood. It has been impossible up to the present time to secure accurate information as to the casualties in this affair."

"At 10:45 o'clock p. m. disturbances broke out at the Zomkowska gate of the suburb of Praga, across the Vistula river. A great crowd had assembled there, threatening the troops, when the Hussars fired upon the crowd and killed four and wounded many others."

"In Jerosotini street a man fired into a patrol from the roof of a house, but without result."

"It was reported by telephone from Lodz this afternoon that a crowd there had stoned a military patrol, whereupon the soldiers fired and killed two men and wounded a boy. A similar outbreak occurred later in Baluki square in Lodz, when two persons were killed."

"In Lodz also at 9 o'clock tonight a bomb was thrown at a patrol, but it was not effective. The patrol fired into the crowd and killed three and wounded two persons."

"A student who was distributing proclamations in Wolla, a suburb of Warsaw, was killed tonight by a patrol. In Nawrot street in Warsaw tonight a patrol killed a woman."

The citizen of Chicago reading this says, "There is anarchy in Warsaw; the government must be very bad." The citizen of St. Petersburg reading the accounts of what is taking place in Chicago says, "There is anarchy in Chicago; the government of the city must be a failure." Neither would be very far wrong. Our boasted free civilization is after all only one remove from savagery.

The Herald complains that Winter is lingering in the lap of Spring down in Los Angeles. How is that? The Herald is continually claiming that there is no winter in Los Angeles.

The announcement that the burglars of Portland have taken to wearing dress suits indicates that they have recently made a big haul in suit cases. However, they should be easily singled out if clad in such outre garb, for the dress suit is an innovation with which Oregonians have not yet become familiar.

The Stockton newspapers have opened the dogday season of journalism a little early. The Independent makes faces at the Mail's law and the Mail sneers ferociously at the Independent's grammar. If there is an open outbreak between the statutes and the rules of syntax, the Stockton Record, which is neutral in regard to both, will have to umpire the fight.

Shea Throws Off the Mask.

The following account of an attempt of the strike leaders and representatives of the Employers' Association to come to an agreement shows how much dependence is to be placed in the proclamation of President Shea of the Teamsters' Union, advising his followers to keep the peace:

Levy Mayer, attorney for the Employers' Association, asked Shea on what terms he would call the strike off.

Shea replied: "We will call the strike off on condition that the employers discharge all the non-union men they have imported and take back the old men in their places."

"The employers can't accede to that demand," replied Attorney Mayer.

"Why, you have been importing negroes by the hundred," said Shea. "Do you mean to say that you refuse to discharge negroes and reinstate white men?"

"So long as a teamster does his work he will not be discharged, be he black or white," replied the lawyer.

"That is an outrage," said President Shea. "You have brought these negroes in here to fight us and we answer that we have the right to attack them wherever found."

There you have it. The head of the Teamsters' Union boldly declares, in the presence of the Mayor of Chicago, that his followers have the right to attack men coming from other cities to take the places of strikers. What becomes of his professed desire to preserve law and order? Mr. Shea would ornament a gibbet nicely.

The finding of the body of John Paul Jones suggests that it is not too late to make a search for the remains of the man who struck Billy Patterson.

Does Prohibition Prohibit?

The newspapers are again discussing the old question, "Does prohibition prohibit?" It will not prevent any man who wants to drink whisky from drinking it, provided he can get it. Thus far prohibition has failed to prevent men from getting whisky, and hence has failed to prohibit either liquor drinking or liquor selling. Prohibition keeps some men in some places from drinking sometimes, but broadly speaking it does not decrease drunkenness. It has been found that drunkenness has increased with a decreased consumption of liquor, because prohibitory laws drives the selling and drinking of liquor into holes and dark corners with the result that men swallow large quantities of villainous compounds during short spaces of time. The secrecy of illegality brings in its train other evils, notably police corruption and political agreements to wink at violations of the law. Narrowed down, the object of all anti-liquor legislation is to eliminate drunkenness and the social evils begotten of drunkenness and the sale of liquor. Yet prohibition has not checked drunkenness and has not succeeded in suppressing the liquor traffic, but has made it—as witness, for example, Maine, Vermont, Kansas and Iowa—wilder and more ulcerous socially than it ever was under the license system.

WITH HOSE OR DELIBERATION.

We are told that the Oakland Board of Education has approved of the whipping of a bad boy "with care and deliberation," but not with a piece of garden hose. Hose is altogether too expensive an instrument of chastisement when care and deliberation cost nothing but a tax on the teacher's patience.—Stockton Record.

"How careless you are becoming in your speech," said Knox; "you left a word out of that sentence."

"Eh? What's that?"

"The word 'fun' after 'much.'"

"You don't seem to enjoy your dinner, dear," said the proofreader's wife. "What's the matter?"

"I was just wondering," he answered, "if there weren't some typographical errors in that cookbook of yours."—Cincinnati Enquirer.

JOSEPH KNOWLAND HONORED BY THE PEOPLE OF ALAMEDA.

Senator Perkins Tells Some Good Stories to the Large Audience.

Congressman Kahn Says Knowland Did Excellent Work in Congress.

R. M. Fitzgerald, a Democrat, Honors the Republican Congressman From Alameda.

Transit Company to Improve Street Car System in the Encinal City.

Congressman Joseph R. Knowland was the guest of honor at a reception given last evening at the Wigwam, by the West End Alameda Improvement Association.

While Mr. Knowland was the guest of honor, there were many other distinguished guests. On the platform with President Charles R. Smith of the association were seated United States Senator George C. Perkins, Congressman Julius Kahn of San Francisco, Superior Judge John Ellsworth, Congressman Knowland, Edwin M. Stearns of the Oakland Board of Trade, President Frank Otis of the Alameda Board of Education, President W. B. Gorham of the Alameda City Trustees, Director R. C. Brown of the Board of Education, City Clerk J. W. Gilgoly, Dr. Thomas Carpenter, Colonel Sam Taylor of Oakland and Attorney R. M. Fitzgerald.

HALL DECORATED.

The hall was handsomely decorated for the occasion. At the rear of the stage was hung a large American flag and another flag was draped over the speakers' table. Before this table were large bunches of lilies and roses. The interior of the hall was decorated with Chinese lanterns, palms and the national colors.

CALL TO ORDER.

The meeting was called to order by Charles R. Smith, president of the association, who first asked the guests to take seats nearer the stage, remarking that Senator Perkins once said he had made love to the Alameda girls, and added, "He can't make love to you if he can't see you."

In introducing Congressman Joseph R. Knowland, President Smith said:

"The Third Congressional district has been fortunate in the selection of its representatives. The Hon. Victor H. Metcalf represented us so ably that the President of the United States took him into his Cabinet. Since Mr. Metcalf's promotion the city of Alameda has been favored by having one of its favorite sons selected to fill the vacancy. It is with pleasure that I give way to the Hon. Joseph R. Knowland, who is not only our representative but a member of this association."

CONGRESSMAN KNOWLAND.

Congressman Knowland spoke as follows:

"When your energetic president invited me to appear before your Association tonight I felt that I could not refuse, recalling the reception tendered me by this body following my election and just prior to my departure for Washington where I was to begin my labors in broader fields. That representative gathering of fellow townsmen, all friends in this very hall, was an inspiration, and during the three months spent at the National Capitol my thoughts often reverted to that gathering, and the kind words of encouragement spoken by my many well-wishers I feel almost at a loss tonight to determine upon what subject to speak. At the Unitarian Club of this city several weeks ago I related some of my experiences while in Washington and told something of the Capital City. I shall strive not to repeat anything said upon that occasion."

"I would perhaps not find myself in this predicament if I followed the course of a certain member of the House from New York. No matter what subject was under consideration, regardless of what bill was before the House, he was ever persistent in his attempts to obtain recognition and when successful would invariably begin to discuss the single tax. I have no pet theme, unless perhaps it be 'landmarks' but I will not indite a discussion of that subject upon you this evening."

THE HOUSE.

"Since my return from Washington I have been repeatedly asked concerning the personnel of the House. From what I had read I fear, perhaps, that I entertained an erroneous conception of the class of men constituting the membership of the National House of Representatives. I am frank to confess I was never associated with a body of men who averaged up as well. I think perhaps this is due, in a large measure, at least, to the fact that a Congressman's term is but two years, and if a serious mistake is made by any district it is soon rectified. In the Eastern States, particularly much care is exercised in the selection of candidates by the various parties. Many of the districts are politically close, and the party managers must nominate men who have the confidence of the people, and men, who, if successful, can be returned until they attain a position of influence and power."

THEIR AGES.

"Of the 385 members of the last

House, 327 were over forty years of age, 56 were between the ages of thirty and forty, and three were under thirty. Youth is sometimes an advantage and sometimes a disadvantage. I had two experiences which illustrate this point. After being assigned to a committee, Ex-Representative Loud of this State kindly volunteered to introduce me to the chairman. We went upstairs into the committee room and there found the gentleman in question. I was introduced but the head of the committee apparently did not understand. 'Oh, yes,' he remarked 'I am glad to meet you, Mr. Knowland. I presume you have been assigned to this room as doorkeeper.' He had applied for a doorkeeper, and taking note of my youthful appearance, supposed that I had reported for duty. When explanations were made there were profuse apologies offered. No one enjoyed his discomfort more than the representative from the Third California District. In the other instance, youth was of assistance. I refer to the fight made for the equipment of the Mare Island Navy Yard.

NAVAL BILL.

"Two years ago the Naval Appropriation Bill provided for the building of two colliers, an amendment being inserted in the Senate by my good friend Perkins, who honors us with his presence this evening, stipulating that both should be constructed in navy yards, one on the Atlantic and the other on the Pacific Coast, the Mare Island yard being designated. It was necessary to provide additional equipment for the California yard. With this for an excuse, an attempt was made to deprive Mare Island of building this vessel. Opposition developed in high quarters. The Naval Committee reported against us and things looked gloomy. An adverse committee report generally sounds the death knell of a measure. The yard being located in my district, I felt that I owed it to the people to fight, even though defeat would result. Older members warned me not to attempt it. The bill had been up for discussion for several days, but not a single amendment opposed by the committee carried. Five minutes before the Mare Island paragraph was reached, as I sat in my seat with the amendment in hand, a kind and timid member sent word to give up, as defeat would surely result. At last the moment arrived and I stated the case as best I could in five minutes. Littlefield, of Maine interrupting and propounding two or more questions which nearly caused me to forget what my amendment was all about. Out of pity for my youth, no doubt, the amendment carried by a vote of 100 to 70, and \$175,000 was given to Mare Island for its equipment. The California delegation all aided, Representative Bell looking after the minority."

THE HARBOR.

Congressman Knowland spoke of the appropriation obtained for Oakland Harbor, stating that the presence in Washington of the committee from the Oakland Board of Trade—Messrs. Stearns and Sessions, had been of great assistance, as it demonstrated that the improvement of that waterway meant much to the commercial interests of Alameda county.

In closing, the speaker paid a compliment to the West End Improvement Association, declaring that organizations of this character were a great factor in the development of a community, bringing citizens into closer touch and awakening civic pride.

JULIUS KAHN.

Congressman Julius Kahn of the Fourth District followed Mr. Knowland in part he said:

"I want to congratulate you on the fact that you take every opportunity to meet your representative and learn what he has done for you, and I have no doubt that you let him know from time to time, what you expect him to do for you."

"Congress is made up of men from every walk in life. It is said of the late Mr. Hoar that when he first went to Congress he said he went unknown, and there he met men whose names were household words. He had read their speeches and marveled at their greatness, and wondered how he, an unknown, could have been elected to a seat in Congress. And when he was returned to Washington he looked around again and saw the same men and wondered how they could have been elected to seats in Congress. When a man elects to do his whole duty, it is hard work, but he will find a friendly feeling among the members. They try to recognize the different wants of our common country."

"I was interested in Mr. Knowland's

account of the Mare Island appropriation. It is rarely accomplished—having a bill amended after it leaves the committee—and the man who does it is to be congratulated. You have reason to feel proud of your representative. In a few months he has done what many men of long years of experience couldn't do. That reminds me of John Allen of Mississippi—known as Private John Allen. When he was about to retire from Congress after eighteen years of service, Private John Allen decided to do something that would immortalize his name. He studied long and finally decided that a fitting memorial would be a fish hatchery at Tupelo, Miss., at a cost of \$20,000. Joe Cannon was Speaker, and he promptly turned the bill down. John Allen decided to try it on the floor. By special privilege he was allowed the floor, and he said: 'When Christopher Columbus started out to discover America he had his mind's eye on the sight upon which is now located Tupelo, but he lost it. When Ponce de Leon started out to find the fountain of eternal youth, he, too, was thinking of Tupelo, but he failed also. It remained for one more fortunate to find the wonderful place. It has been thriving ever since, and when the immortal Lincoln and Horace Greely were discussing the situation before the war, it is said that the President said he didn't care if the South did succeed so long as they did not take Tupelo. Tupelo is the only place in the South where the moon shines as brightly as it did before the war, and if this appropriation is made thousands of fish will go overland to the hatchery and thousands of fish yet unborn will be clamoring to be bathed at Tupelo.' Private John Allen got the appropriation."

"James G. Blaine, in his book, said that the men who achieved the greatest distinction in Congress were sent there before they were forty. You have done well to select a young man; now keep him there. See that he is returned term after term, for it is only by years of experience that he can rise to the chairmanship of one of the great committees, where he can shape the legislation of the country. The California delegation is going to work in harmony and we are going to give you results. During my four years in Washington I was convinced that there was not a member of the Upper House who was a harder worker than Senator Perkins."

SENATOR PERKINS.

At the conclusion of Congressman Kahn's remarks, Senator George C. Perkins was introduced. He said it was a great privilege to be present and assist in honoring one who had commenced such a good work in Congress. Continuing, he said:

"In honoring Congressman Knowland you do honor to yourselves and to one of the brightest gems in the constellation of cities about the bay. I esteem it an honor to know Joe Knowland, and I want to say now that I know of no gentleman who has been in Congress so short a time who has accomplished so much as he. His work in the national halls of legislation speaks for itself, there is no reason for me to make a recapitulation."

"Congressman Knowland spoke of the ages of the members of Congress, and I have been calculating on the ages of those of the Upper House. I find that in the Senate there are forty-three beyond the age at which Dr. Osier says they should be chloroformed, and many are much older."

"Senator Pettus of Alabama is 83 years old. He told me he came across the plains to California in 1849, and brought the best library ever brought into this State. I was surprised and asked how he could come across the plains and over the Rocky Mountains and the Sierra Nevadas in an ox team with such a collection of law books. He insisted and I asked him what books they were. He replied, 'The Bible and Shakespeare, and with those two books I never lost a case in California.'"

"Mr. Knowland takes great credit to himself for being a native son. I don't see why he should. Who is there among us who wouldn't have been a native son if we had been consulted? There is not a greater nor a fairer State in this great Union."

"Congressman Kahn spoke of the work I had done and told of the long hours I toiled in Washington. The explanation of this is that, with his magnificent intellect he could accomplish more in an hour than I could all day. I have been in every State and Territory in the Union and in almost every country of the world, but nowhere are there braver men or fairer women than in this State. We must

see other places and other persons before we can appreciate this State, and the men and women of California."

"I have a story of Private John Allen, about whom Mr. Kahn spoke. When in New York Allen went to Central Park in a cab and when he returned the driver charged him \$10. He took the man inside to the clerk of the hotel, and explained the exorbitant charge. 'Did you make a bargain before going?' asked the clerk. 'No,' replied Allen. 'Then,' said the clerk, 'you must pay it.'"

"The next day Allen desired to go to Brooklyn and went down to the ferry. 'I intend to go to Brooklyn, but it is not at all necessary,' he told the captain. 'In fact, I would just as well stay as go. Now, what are your charges? I can't pay more than four bits.' 'Three cents,' replied the captain, 'jump aboard.'"

"Returning to my subject, I believe that Joe Knowland should be returned to Congress again and again, just as the people of San Francisco have returned Congressman Kahn. They tried a change and they have paid dearly for it. There is always differences of opinion, just as there was in a train discussion during the recent Presidential campaign. One man was talking for President Roosevelt, the others sympathized with Judge Parker. The discussion grew heated and a Millerite interfered. 'Gentlemen, you are both wrong,' he said, 'this year the Lord will claim his own.' 'Bet you two to one he can't carry Missouri,' shouted the Parker man."

Senator Perkins then said he had observed State Prison Director Fitzgerald in the room, and asked leave to give way to him, with a request that the chairman call upon Mr. Fitzgerald.

R. M. FITZGERALD.

"I confess that I was a little staggered when you asked a man who looks after criminals to address a Republican love feast," said Mr. Fitzgerald, after the applause which greeted his name had subsided. "I came here as a friend and a well-wisher of Joe Knowland. I have followed his career—I have reached the age where I can follow careers—and I am proud of his ability, his integrity and his righteousness."

"My case reminds me of the gentleman who applied for admission to heaven. His answers were not all satisfactory, and he was asked from whence he came. He replied that his earthly abode had been Alameda. They told him that, while his answers were not entirely satisfactory, there was no one else from Alameda there, so they let him in. Like that man, I am a Democrat, feel a little bit out of place. 'You have perhaps heard of the Irishman who went to a hotel and the only room already had an occupant, who proved to be a judge. When they had gone to bed the magistrate said, 'Pat, you'd be a long time in Ireland before you could sleep with a judge.' 'Yes,' answered Pat, 'and you'd be a long time in Ireland before you could be a judge.'"

"It is surely a pleasure to be with you here tonight. It is the friendship here expressed that amounts to more than all else. No reward comes in this life that is one half so sweet as the sturdy hand-clasp and well-wishes of those who live at our doors, those who say they appreciate our efforts, have confidence in us and faith in our good name. It is the greatest legacy a man can leave to his family, and I say to Joe Knowland that I have watched his course, and when we can all join, irrespective of party, and say, 'Well done, thou good and faithful servant,' there is nothing more to please the human heart."

JUDGE ELLSWORTH.

Chairman Smith next introduced Superior Judge John Ellsworth, who said in part:

"It is a pleasure for a resident of central Alameda to come down here and see your life and activity. It is like going from a close room to the cool, fresh air. I don't know of another body of men who have done so much for the growth of Alameda as this Association. It is particularly fit-

ing that you should honor Joe Knowland, who is one of your members.

"Congressman Knowland told you about his experiences in securing an appropriation for Mare Island. I heard a supplemental story. After the roll call one of the older members said to him: 'Joe, you talked five minutes, and I'm glad you didn't talk any longer, for every minute you talked it cost the Government \$35,000. But the money will be well expended. There is no more important thing to Alameda county than the improvement of Oakland Harbor, and no more important thing to the State than the improvement of Mare Island Navy Yard. When the ship and car can be brought together all along San Antonio Creek there will begin an era of prosperity that will be astonishing. Postoffice buildings are good things, but one good, large manufacturing plant is worth more than a dozen postoffice buildings."

MARE ISLAND.

"The importance of Mare Island to the State hardly can be realized. An effort has been made to transfer the navy yard to another site, but this must not be. The present location is the central, logical one, and I believe that the interest on the money that would be required to move it would pay for dredging the channel to Mare Island."

"In conclusion I wish to say a word for Mr. Fitzgerald. Bob may be a Democrat—perhaps he is—but there are few Republicans in the State who have more Republican friends."

EDWIN STEARNS.

Edwin M. Stearns, secretary of the Oakland Board of Trade, was the next speaker. He spoke of going to Washington with E. C. Sessions to assist in working for the harbor appropriation bill, and of the work Congressman Knowland did. Continuing, he said:

"Oakland harbor is no more to Oakland than to Alameda. In the Brooklyn basin, bounded on the north by Oakland and on the south by Alameda, there are 300 acres—sufficient space to anchor every boat on the Pacific ocean—and it is of the greatest importance that the harbor should be properly dredged."

"When I reached Washington I found Mr. Knowland busy in getting acquainted. His certain dignity of bearing took well with the other representatives and Senators, and I heard nothing but good of him on all sides. He was fortunate in having the friendship and assistance of the Senior Senator for no man in Washington stands better than Senator Perkins. No Senator works harder and Mr. Knowland followed his example. Mr. Knowland answered every letter from California, just as he answered those of his constituents when he was in the State Legislature. We are particularly fortunate to have two such men represent us in Washington."

"The work on the harbor will soon begin, and it will not be long before you will see unprecedented activity east of the Webster street bridge. The leases have all been cancelled and everything is in readiness. When the work is started, don't let it stop, but return Congressman Knowland to see that it is pushed forward to completion."

SAM TAYLOR.

Colonel Sam Taylor was called upon to speak of the proposed improve-

ments of the Oakland Traction Company.

"First," as secretary of the Union League Club of Alameda county, let me welcome a fellow member, Congressman Knowland," he began, and added:

"Coming over on the car with Mr. Fitzgerald tonight I didn't blame the people of Oakland for kicking. One of the car seats cracked. (Laughter.) But this condition will not obtain long. I wrote to Mr. Smith that there would be a change in the spring and now I can announce to you that the reconstruction will begin in July. The delay has been caused by that of securing franchises in East Oakland, so that we can make the entire circuit on a standard gauge track without transfers."

"The company that I represent has expended, since April, 1898, in payment for labor, the sum of \$3,402,700.88. That represents about \$500,000 a year. In taxes we have paid \$12,000 and we have paid on franchises \$500 within the last two years. In the city of Oakland alone we have paid \$100,000 in taxes. The improvement of Telegraph avenue cost us \$40,000. Now we are anxious for the reconstruction of the Alameda line and when we are finished we hope you will be as proud of your street car system as you are of your Congressman."

Other speakers were Frank Otis, president of the Unitarian Club, who spoke for play grounds and shade trees, President W. J. Gorman, of the City Trustees, and Judge A. P. Hunt. The reception committee consisted of Major C. L. Tilden, Dr. J. A. Black, George T. Wright, J. U. Bird, A. V. Clark, Assemblyman J. Clem Bates, T. W. Leydecker, Dr. W. O. Smith, James Dunn, J. F. REFEREES TONIGHT'S FIGHT BETWEEN BRITT AND WHITE

Independents Win 22 Straight Games.

The twenty-second straight victory for the Independents of St. Mary's College was won on the college campus Wednesday, when they defeated the Berkeley High to the tune of 4 to 3.

The announcement of the game was as much a surprise to the victors as the result was to the vanquished, as the Independents are by many years the younger players.

It all happened this way. By some misunderstanding of the managers of the Young Phoenix and the Berkeley High the latter appeared on the campus at 2:30 o'clock to play the Young Phoenix team. The Young Phoenix players were in the midst of a rehearsal for their operetta at Idora Park on May 13, and hence could not spare the time for a game.

The visitors were handed over to the tender mercies of the third team of the college—the Independents.

The latter's manager stated it would be well to let the "kids" practice against a heavy team.

The game began and ere many innings the visitors clearly saw that their opponents, though small, were no babes. The game was full of brilliant plays throughout. For the visitors McCarthy, Solinsky and Hayden did well. Pitcher Doane kept the college "kids" guessing, but was a trifle wild at times.

Manager Shine is to take his invincible team to Hayward's next Saturday to play the Hayward High. As the Haywarders were beaten by his team they will make a great effort to win, but the Independents are equally determined to keep up their brilliant record.

The following was Wednesday's score:

ATHLETES TO MEET AT U. OF C.

BERKELEY, May 5.—The P. A. A. track meet will take place tomorrow at 2:30 p. m. Several of California's best men will enter, and some very closely contested events are expected. A complete list of the University men who will go in is not obtainable, as examinations make it impossible for some to say whether they will be able to take part or not, but among those who will be pretty certain to contest are Snelgar in the 100, Junck in the low hurdles, Meals in the mile run, Gilmore in the shot put, Zacharias in the hammer throw, Sperry in the weight events and Golcher in the 100 yards.

Trainer Christie said in an interview that, "although the examination period has somewhat upset California's men, they will make a good bid for several places. The 100-yard sprint between Snelgar and Parsons of the University of Southern California is the most interesting, as will also the mile run between Miller of Stanford and Glanier of the Olympic Club. The track is in excellent shape and everything is propitious for some good races. Some coast records are pretty liable to be broken. If Miesler should decide to meet Miller of Stanford in the half-mile run a race of rare interest would be looked for."

Persons who wish to enter with Snelgar in the 100-yard dash, has a record of 9 4-6 seconds and a great reputation. This event promises to be made in excellent time.

AMATEUR BASEBALL PLAYERS!

Send in the makeup of your team. Also, your challenges, games played and scheduled and any other information which might be of interest to amateur baseball fans. It will be prominently and promptly published on this page. Address the SPORTING EDITOR, OAKLAND TRIBUNE, Oakland Calif. This paper is willing and desires to help the amateurs and their game in every way possible. Send in the news. There's only one condition—write plainly and ON ONE SIDE OF PAPER.

The Warren's O. K. baseball team of Oakland will journey over to Tamalpais ground near San Rafael tomorrow to play the California Leithor team. The latter bunch has never been defeated and the Warrens anticipate a hard struggle. A return game will be played on the same grounds on June 4. The Warrens will leave on the 11 a. m. North Shore boat and will be entertained at luncheon by the opposing team.

The Nationals (third team) wants to challenge any team under 13 years of age, the line up is as follows: Fatsy Tuzzo, catcher; Eddie Donegan, pitcher; Frank Paoli, first base; John McLean, second base; Harry Hoffman, short stop; Artie King, third base; Albert Hennickson, right field; George Guild, left field; Dannie Arena, center field.

All challenges should be addressed to Frank Zelik, 787 Sixth street, Oakland, California. Frank Paoli, captain.

Sporting Editor:—Would like you to publish my challenge for games of baseball, county teams preferred, under 13 years. Our line up is as follows: C. Wilson, pitcher; J. Turner, catcher; J. Gazengo, first base; L. Irigoyen, second base; A. Ferrier, third base; H. Spenger, short stop, captain; W. Lulu, left field; Ed Stevens, center field; S.

Wilson, right field. R. Wilson and F. Oiberg, substitutes.

Address challenges to C. W. Lulu, 1008 Tenth street, West Berkeley.

The Occidentals have organized for the season and would like to play any team 17 years or under.

The Occidentals play Saturday and Sunday.

Address challenges to John O'Hara, 1539 Fourth ave, East Oakland.

SAN LEANDRO, May 5.—By a score of eight to six the Estudillo nine of San Leandro defeated the Elmhurst boys in an exciting game of baseball Wednesday afternoon on the grounds here. There was an enthusiastic audience at the contest, which took ten innings to play. At the end of the ninth the score stood six to six. The visitors failed to connect with the ball when they went to the bat after the Estudillos had made two runs and retired.

The Golden State Stars would like to hear from any amateur baseball team under fifteen years of age.

Last Wednesday we defeated the

first team of St. Mary's school, Oakland by a score of ten to three.

Please send all challenges to Joseph Jackson, 5862 San Pablo avenue.

The Young Oakland baseball team has been organized for the season of 1905. It would like to hear from any team at the age of 14.

The line-up is as follows: M. Allen, pitcher; F. Langtry, catcher, McManus, first base; H. Kennedy, second base; L. Daly, third base; L. Ferguson, center field; C. Adams, shortstop; F. Smith, left field; H. Dodd, right field.

All communications should be addressed to F. Langtry, 807 Harrison street, Oakland.

Sporting Editor—Dear Sir: We have organized a fast bunch of ball tossers by the name of the Sixth Street Stars. We would like to hear from any team averaging sixteen years of age (The Nationals, first team, preferred).

We have defeated the Lake Merritts by a score of 10 to 9. Also the Willows, 10 to 4.

Line up is as follows: Catcher, McElroy; pitchers, Brown and Fitzsimmons; first base, Fuller; second base, Donivan; third base, Newman; short stop, Brown or Fitzsimmons; right field, Wynner; center field Reid; left field Myers. Address all challenges to Richard Brown, 220 Sixth street, Oakland.

With a special card as the attraction, the season of racing under the auspices of the New California Jockey Club will be brought to a close tomorrow. The present meet has been a most successful one and reflects much credit on President William H. Williams and his assistants. Percy W. Treat, secretary of the association.

BY ED SMITH

Both Britt and White under-stand perfectly just how they are to fight and keep within the rules of governing tonight's contest. Each has given his interpretation, I have given mine and we have come to an understanding as to the requirements that are satisfactory to all. I anticipate no trouble with either boy while in the ring.

When Britt and White meet all questions with the exception of their fighting ability will be eliminated. Neither American nor Englishman will be given the preference. I will give my decision upon the merits of each and not upon the "race question" or the "native son question." The decision goes to the best fighter, whether he be American or Englishman.

At the present writing there is apparently nothing to prevent the international meeting this evening in Woodward's Pavilion, San Francisco, of Jimmy Britt and Jabez White.

The pugilistic journey of twenty rounds under the auspices of the Hayes Valley Club, with Ed Smith of THE TRIBUNE's sporting staff as referee, is assured.

Foreman Andrews of the Grand Jury says that he personally has no objection

BY JIMMY BRITT

My condition is perfect. I have worked faithfully to prepare myself for this fight, for I realize that Mr. White is not to be regarded lightly. He is the best in England, so why should some people say that my task will be easy.

I look forward this evening to the hardest battle I ever had in my ring career, and all I can say is that I will strive to win; if I am defeated it will not be because of lack of condition or because I didn't try.

I also want to take this occasion to say that I am pleased with the choice of Ed Smith of Oakland as the referee. I know that with him in the ring I will get an even break.

to the fight and was in favor of its being held.

As Morris Levy has abundant proof that the Hayes Valley Club is a real and true organization composed of about 350 members, and that he has complied with the law in every respect, there is no danger that the mill will be postponed.

White's long siege of training is over, and the Briton is anxiously waiting for the tap of the gong. Yesterday was the quietest day spent by White since his sojourn at Larkspur. He rose early and took a short walk, accompanied by Charles Mitchell.

BY JABEZ WHITE

Your wonderful California climate has enabled me to get into perfect shape for my meeting with your fighting Native Son, and I desire to say that never have I been in better condition for any of my fights back home.

I feel certain that I will be the victor, although I do not think that I underestimate the ability of Mr. Britt.

I notice that in his interview with the press that he states he intends to make an aggressive fight. Well, there is nothing that will suit me better. My record shows that I will not be the one to avoid such a battle.

And, too, let me say that I, a stranger, know I will be fairly treated by Referee Smith, whose reputation was made known to us in New York.

The only work indulged in during the afternoon was a few minutes' exercise with the dumb bells. The greater part of the day was spent in lounging around the camp and in packing up.

White said: "I certainly expect to win, but cannot say whether by a knockout or on points. I came all the way from England to fight Britt, and I hope to score a decisive victory over him. I have trained hard and faithfully for the battle, and I am in the best possible condition. In fact, I never felt better in my life. If I lose I will offer no excuses."

Wow! What a wallop! Oakland's playing yesterday was like a Swiss cheese—full of holes.

As example, Los Angeles got credit for four runs without a hit having been made.

Further along in the game O. Graham grew frenzied and Hogan had to take his place in the prominent position.

Then Van Heltren grew angry over affairs and passed out a joke to Umpire Perrine. "Bull couldn't see it and sent Van to the bench for the rest of the game."

It was an awful day. Even Perrine got his. A man in an Angel's uniform came in on a passed ball and was caught on the plate. Dillon couldn't see with the umpire that the runner was out and called for the book of rules.

A glance therein and the use of the tape line showed that the runner was in. The umpire sent the runner back to the plate and the run counted.

Even "Yule" Streib was off. He made a couple of errors, and with Kelly, gained the displeasure of the fans for their apparent lack of knowledge pertaining to league leather. The post-

CHANGES MADE IN TENNIS RULES.

United States Will be Represented in the Great Tournay.

BOSTON, May 5.—James Dwight, president of the United States National Lawn Tennis Association, has received a cablegram from G. R. Mewburn, secretary of the English Lawn Tennis Association, conveying the information that the modifications to the regulations suggested by the United States National Lawn Tennis Association have been practically agreed to.

Some time ago the English Lawn Tennis Association submitted certain proposed changes to France, Belgium and the United States, and the United States Association, in turn made certain suggestions.

One of the principal changes suggested by the English Association was to do away with the necessity of twenty-one days' notice of the names of members of a team and also, in the case of a team of four men, of the events in which they would take part.

This change was acceptable to the United States Association, but there was doubt as to whether the changes would be agreed upon by the several associations in time to take effect this year.

It would appear that this year's competitions at Wimbledon, England, must be played under the new rules. This being the case, a team of four men undoubtedly will be sent by the United States National Lawn Tennis Association.

THE HOUSE THAT SAVES YOU MONEY

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid Them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, who are either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the small of the back, leucorrhoea, pain in the womb, nervous exhaustion, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the penalty has to be paid by a dangerous operation.

When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

THEY READ MANY BOOKS IN BERKELEY.

Public Library Patronized in Splendid Fashion—Trustees Receive Report.

BERKELEY, May 5.—The Board of Trustees of Berkeley Public Library met yesterday afternoon at 5:45 o'clock in the library building. A. G. Weinberg was elected curator of the West Berkeley reading room, his duties to begin the first of next month.

Miss Mabel Weed, who has been assistant librarian for many years, was granted a two months' leave of absence with full pay. Miss Weed lost her father, Dr. Weed. She will spend her vacation in the Santa Cruz mountains.

The circulation of the library is increasing rapidly and will soon pass the ten thousand mark, according to Librarian D. K. Moore's report which was read and accepted at the meeting. From the main library alone, 8254 books were circulated, while from the branch rooms 5611 books were taken out. The membership of the library is also making rapid strides, 490 borrower's cards being issued during the past month, making the total number of cards 4667.

REGIMENTAL CAMP GOES OVER

NO MONEY AVAILABLE FOR ANNUAL OUTING OF THE NATIONAL GUARD.

There will be no encampment of the Fifth Infantry Regiment, N. G. C., this year.

What is true of the Fifth is also true of all the other regiments of the Guard, owing to the inadequacy of the appropriation.

A communication to this effect has been received by the Commanders of the various local militia companies from General Lauck.

The Adjutant General requests that this determination of the matter be made known to the militia men as early as possible so that they may regulate their summer vacations accordingly.

A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again.

S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of any kind. Treatise with instructions for home treatment and any advice wished, without charge.

GIVES PARTY AT FRUITVALE

MISS FLORENCE CAREW IS HOSTESS—THOSE PRESENT.

FRUITVALE, May 5.—A party and supper was given by Miss Florence Carew to her friends at the home of her parents, Mr. and Mrs. C. W. Carew, on Seminary avenue. The evening was pleasantly passed in dancing and playing round games.

At ten o'clock the hostess ushered her guests into the dining room, where was served a delicious supper. After the meal, the young people sang songs and played a few more games before returning home.

Those present at the affair were as follows: Misses Charlotte Nelson, Elsie De Remer, Marie Dia Mora, Annie McCleughery, Blanch Shook, Edna Lewis, Gertrude Eugene, Laura Lloyd, Margaret Lloyd, Theresa Carew, Lizzie Carew, Caroline Nelson, Willie Hlem, Thomas Bentley, John Lloyd, Thomas Lloyd, Jim Hughes, Charles Hughes, Lester Bates, Lewellen Esmond, Edward Haskell, Robert

HIS CURE COMPLETE

MR. PORTER NOW ENTIRELY FREE FROM NEURALGIA.

Remedy Found in Dr. Williams' Pink Pills. Relief Began With First Box and Pain Now Gone Altogether.

"It seems like a miracle that those little pink pills should have cured my neuralgia," said Mr. Porter. "They are certainly a marvelous medicine and I shall always be glad to recommend them."

"For two years," he continued, "I had suffered almost unbearable pains in my head. They would start over my eyes and shoot upward most frequently, and at times over part of my head and face would be full of agony. Sometimes the pains were so intense that I actually feared they would drive me mad."

"Were you in pain all the time?"

"My eyes ached constantly, and there was always a burning sensation over my forehead, but the other pains varied, sometimes they were acute, and again they were dull and lingering."

"Was your health in general affected?"

"I could not sleep, my temper was irritable and I got no pleasure out of life."

"During those years of suffering, you made efforts to conquer the disorder, didn't you?"

"I surely did. I tried remedy after remedy, but finding no help in any of them, I became a despairing man. Even when I began to take Dr. Williams' Pink Pills I had no great hope of a cure. I had also suffered from neuralgia, and I merely thought: they won't do me any harm; I may as well try them too."

"That was in December of 1903. To my surprise, a change in my condition began to appear. The pains grew less intense and the acute attacks were further apart, as I kept on using Dr. Williams' Pink Pills. The improvement began with the first box, and when I had used six boxes I stopped. My cure was complete and has lasted ever since."

Mr. Charles H. Porter lives at Raymond, New Hampshire, and is well known as the proprietor of the Hotel Raymond. He is one of many grateful people who have found that Dr. Williams' Pink Pills will cure diseases of the nerves that have stubbornly resisted every other remedy tried. They do not deaden pain, but they cure the disease that causes the pain by purifying and enriching the blood. Not only neuralgia, but sciatica, partial paralysis and locomotor ataxia yield to them.

One of the best things about Dr. Williams' Pink Pills is that they do not contain the slightest trace of narcotics. No harmful drug habit results from using them. As soon as the cure is complete they can be laid aside without discomfort. They improve the general health at the same time that they cure the nerve-aches. They are sold by all druggists. A valuable booklet on nervous disorders will be sent free to any one who will write the Dr. Williams' Medicine Company, Schenectady, New York.

SCHOOL GIRLS INJURED

ALAMEDA, May 5.—Miss Marion Hovey and Miss Florence Agnew, pupils of the Alameda High School, while riding their bicycles, were run down yesterday afternoon by a delivery wagon belonging to the Jersey Creamery on Santa Clara avenue, and had a narrow escape from serious injuries. Miss Hovey was more frightened than hurt, while Miss Agnew was so painfully injured that she had to be taken to her home, 2037 San Jose avenue, where she was attended by Dr. Weston Smith. Some severe bruises and contusions were treated by the physician, but he found no bones broken and no injuries to her serious nature.
